

Construction Site Erosion and Sediment Control (COSESCO) Ordinance
COSESCO Permit Application
(For sites less than 1 acre total in size)

- A. Job Address: _____
- B. Plat: _____

- C. Choose One:
 - I have obtained an Iowa NPDES General Permit #2 for this address as required by the developer. Authorization # _____
 - The above address is currently covered under a NPDES General Permit #2 as part of a larger development. Authorization # _____
 - An Iowa NPDES General Permit #2 is not required for this site.

- D. Choose One:
 - I am the permittee of the development/plat referenced above.
 - I have accepted a transfer of liability and sole responsibility for the NPDES General Permit #2 compliance on my site.
 - I have not accepted a transfer of liability. The responsible party is _____

- E. Stormwater Runoff Control Plan:
 - I have submitted a site plan showing the proposed locations on the site/lot which include the following: sediment and erosion controls, stabilized construction access, stockpile, drainage patterns shown with arrows and waste containments (concrete washout, sanitary waste, construction debris, etc.).

- F. Permittee's Information:
 - Name _____
 - Email Address _____
 - Street Address _____
 - City, State, Zip Code _____
 - Phone Number _____

It is understood that the above party is responsible for maintaining best management practices (BMP) control measures on the site. A construction site access that prevents off site tracking is required and all waste that may adversely impact water quality will be managed in compliance with all applicable state and/or federal permit requirements.
